

Yerkes

John Yerkes Jr. & Nick Cirilli

A Message from our New President

This past June, 2016 when John B. Yerkes, Jr., Chairman of the Board, Yerkes Associates, Inc., approached me to be the new president, well I must admit the challenge seemed daunting at first. But then WOW, to continue to carry the torch since 1874, was an honor!!! So on second thought; the company's history of persistence, it's staying power in serving clients since 1874, along with it's staff - a dedicated, caring, and hard working group, with a deep sense of serving others...are a great base to build upon.

And build upon we are -A journey of continuous improvement and growth for our staff to showcase their talents, serving our clients, providing a path for career growth. So I ask, "If you don't enjoy your work, how can one be giving the very best to it's clients? If one doesn't improve, how can one give even more than the other firms?" And speaking of growth, interested candidates, please check our [Career Opportunities](#) link.

When you come to work **to serve and learn and improve**, the journey is much more enjoyable. Even more important, the client gets a far better product, as opposed to a staff that simply comes to work "to-work". While we sustain that type of environment, our clients will get the very best, from what Yerkes Associates have to give.

Thank you,

Nick Cirilli, PE
President / CEO

Building Code & Zoning Administration

Our team of **Frank Newhams, Rick Renninger, Joe Lavelle, Danielle Stoltzfus, Kim Hoopes, Darren Emmich, and Mike Murphy** serve various municipalities in a variety of ways such as Zoning Administration, Commercial and Residential Plan reviewers and Building and Site Inspectors.

MS4's - Are You Testing Positive?

Municipal Separate Storm Sewer System (MS4) Permit Compliance, annual report preparation, TMDL goals, outfall mapping testing, credits, and a

As Municipal work loads increase, our staff is fully capable of assisting in the full gamut of **residential and commercial** reviews and inspections. Our staff is fully qualified to provide such services.

As a qualified Third Party Agency, we make every

changing regulation - ugh! Where does one begin? A difficult task for most to remain positive, yet a worthy cause.

Yerkes Associates, Inc. is currently providing **MS4 Permitting** assistance to a host of municipalities and in a variety of ways - from full service to partial assistance.

Our staff has the necessary "know-how", and "testing equipment" for sampling outfalls, investigating flows and identifying if necessary, the pollutant.

Team members attend seminars quarterly to keep up with the constant changes in requirements and the focus of improving the audience's understanding of the causes and impacts of stormwater pollutions and the steps to prevent it.

We are equipped with a LaMotte Stormwatch MS4 Water Screening Kit to get testing done onsite without the hassle of transporting multiple samples to a lab.

Municipal Coordinator & BCO

effort to ensure compliance with all Municipal ordinances, that specific code requirements at law are accurately and fairly enforced, and that our employees provide quality, professional customer service at all times.

L to R: Joe Lavelle, Kim Hoopes, Danielle Stoltzfus, Frank Newhams, Rick Renninger

Note of Interest!

Frank Newhams and Rick Renninger are two (2) of only (800) professionals in the entire country, who are "Master Code Professionals" (International Codes Council).

The honor is bestowed upon those individuals who have successfully passed required exams and obtained the required certifications of code discipline.

Congratulations Frank and Rick!
