

Kevin Boyle

Land Development Inspector

Education:

East Stroudsburg University, 2002, BA Environmental Science (minor English)

Responsibilities and Experience:

Kevin brings over 18+ years of experience in Erosion and Sediment control, Permit processing assistance, Land Development and Site construction, along with municipal plan reviews and site inspections, comprehensive plans, ordinance development, park and trail plans, open space management and utilization, site remediation, municipal land planning, and MS4 testing within local counties. Kevin joined the Yerkes team in May 2019.

He brings immediate experience to many municipalities in both Chester and Delaware Counties. A professional with an excellent reputation, Kevin is passionate about the environment and nature; he has volunteered as an environmental and botany judge for the annual DCIU Science Fair for middle and high school students each year.

Also, since 2003, Kevin has volunteered for the annual stream clean up with the Crum Ridley Chester Watersheds Association.
