

**Michael W. Barbieri**  
Survey Manager / Project Designer

**Education:**

Penn State University, 1982, Associates Degree in Land Surveying  
Downingtown High School graduate 1980  
Continuing education credits from 1988 to present.

**Responsibilities and Experience:**

As Survey Manager, Mike is responsible for the overall management of the Yerkes Associates's Survey Department. Duties include from responding to initial client phone calls and the preparation of the survey proposals, to the scheduling of our field crews and field work. He gathers and prepares information, for use in the field by our survey crews. He collects and converts the raw field data into usable formats - the calculations for and CAD to prepare ALTA/ACSM Land Title Surveys, Boundary and Topographic Surveys, Subdivision and Land Development plans.

Mike started his career working for Berger & Hayes, before coming to Yerkes Associates, Inc., in 1984. He accepted the position as a Rear Chainman, moved on to Instrument Man, followed by his role as Crew Chief. In 1992, he moved into the office starting as a Draftsman, then promoted to Technician, to Drafting – Design Technician, and from that point acquired the position of Project Designer.

A dedicated and loyal team leader of 37 years with Yerkes, Mike continues as our Survey Manager and Lead Project Manager for Private Development Projects. His attention to detail and commitment to keep clients apprised of their projects is an asset second to none.
